Among the thousands who have consulted him by mail the case of Mr. Newton B. Blake, of Tiplersville, Tippah Co. Miss., as shown in the following letter indicates the remarkable efficacy of his treatment. "In December 1505 my health began to fail. I tried many different kinds of medicines and the more I took the worse the discase grew. Finally in April when I was busy with the farm work my health got so bad that I could not hold out to work one hour. My breath became short and I was weak and nervous, and oftentimes would spit blood. I was unable to work. I tried one of the doctors in the vicinity but failed to obtain relief. I seemed to grow worse. My father received a book from Dr. Pierce in which I read of a case similar to mine, and decided to write to Dr. Pierce. He recommended me to take his Golden Medical Discovery. After taking six hottles of this remedy I can recommend it as one of the best medicines to build up the system. I am now enjoying good health."
